POSITION DESCRIPTION

BACKGROUND

The Office of U.S. Foreign Disaster Assistance (OFDA) is the office within USAID that is responsible for providing emergency non-food humanitarian assistance in response to international crises and disasters. OFDA is part of the Bureau for Democracy, Conflict, and Humanitarian Assistance (DCHA) and is organized into six divisions.

**Solicitation for a USPSC Deputy Manager for Operations/Deputy Team Leader for
Operations (Multiple Positions)
720FDA19B00060**

The Africa (AFD) Response Division and the Asia, Latin America, Europe, and Middle East (ALE) Response Division are responsible for the provision of emergency humanitarian assistance through a grants mechanism to non-governmental organizations (NGOs), international organizations including United Nations (UN) agencies and to other partners to ensure the implementation and delivery of this assistance. These divisions also oversee OFDA's non-response efforts in disaster risk reduction and resilience. AFD and ALE Response Divisions also coordinate with other organizations for the provision of relief supplies and assistance. They devise, coordinate and implement program strategies for a variety of natural and complex disaster situations. Both Divisions encompass groups of operations specialists who provide technical expert capability in assessing the quality and strategic function of disaster response and risk reduction activities. The AFD Response Division is divided into two teams: East and Central Africa (ECA), and Southern, West, and North Africa (SWAN). The ALE Response Division is divided into four teams: East Asia and the Pacific (EAP), Europe, the Middle East, and Central Asia (EMCA), Latin America and the Caribbean (LAC), and South Asia (SA).

The Operations (OPS) Division develops and manages operations for OFDA's disaster responses by readying people and systems; projecting U.S. Government (USG) humanitarian capacity quickly into the field; and delivering material and technical assistance. The OPS Division maintains readiness to respond to emergencies through several mechanisms, including managing Urban Search and Rescue Teams, coordinating, staffing, training, and equipping Disaster Assistance Response Teams (DARTs), and Washington-based Response Management Teams (RMTs), and stockpiling emergency relief commodities in key locations around the globe to ensure OFDA's capacity to execute and coordinate USG humanitarian assistance and response to natural disasters and complex emergencies. The OPS Division provides technical guidance and expertise in Disaster Logistics, Urban Search and Rescue, Operations Center management, activation/readiness, Civil-Military Liaison, and Chemical, Biological, Radiological, Nuclear and Explosive Consequence Management. It also provides overseas support to OFDA offices and personnel and to other sectors necessary to ensure OFDA's capacity to execute and coordinate USG humanitarian assistance and response to natural disasters and complex emergencies. The OPS Division is divided into four teams: the Disaster Assistance Support Program (DASP), Military Liaison Team (MLT), Operations Support Team (OST), and Overseas Administration Team (OAT).

The Program Support (PS) Division provides operational management support, including general administration, budget and financial services, procurement planning, information technology, human resources management including staff care, and contract and grant administration support to OFDA. The PS Division supports OFDA's mandate by providing innovative solutions in the areas of Information Technology, staffing, funds control, budgeting, human resource management, and procurement to facilitate timely disaster responses. The PS Division is divided into four teams: the Award, Audit, and Risk Management (AARM) Team, Human Resources Management (HRM) Team, Budget, Finance, and Information Technology (BFIT) Team, and the Acquisition and Management (ACQ) Team.

The Preparation, Strategic Planning and Mitigation (PSPM) Division is responsible for the technical oversight of all OFDA response and mitigation programs, as well as preparation for

**Solicitation for a USPSC Deputy Manager for Operations/Deputy Team Leader for
Operations (Multiple Positions)
720FDA19B00060**

response, mitigation, and disaster risk reduction activities. The PSPM Division houses technical experts in all sectors potentially affected by disasters, and leads the Agency in developing and promoting best practices for programming in these specific sectors. In addition, PSPM will be the focal point for technological innovations for humanitarian assistance in areas such as monitoring and evaluation, assessment, and information management. The PSPM Division is divided into four teams: Cross-Cutting Sectors Team, Natural Hazards Team, Health Team, and the Food Security and Livelihoods Team.

The Humanitarian Policy and Global Engagement (HPGE) Division assists the DCHA front office, the OFDA Director and OFDA Deputy Director with tracking trends and policy developments in the humanitarian assistance field. It engages in policy dialogue with other parts of USAID, the USG interagency, other donors, multilateral agencies, and NGO partners; recommends strategies for action to DCHA; initiates development of policy and internal guidance for OFDA; maintains global relationships with implementing partners, other donors, and the broader humanitarian architecture; and engages with the UN to advance USG humanitarian policy objectives and promote humanitarian principles within the USG and internationally. The HPGE Division leads OFDA's communications and social media outreach to effectively communicate OFDA's story to a variety of strategic audiences. It serves as the office's primary interlocutor on strategic issues with other federal partners to provide guidance to OFDA on policy issues pertaining to the interagency, and to improve USG humanitarian coordination and response during large-scale crises. The HPGE Division staff manages global programs, policy and outreach, strategic communications, and interagency training and engagement. HPGE is divided into seven teams: Policy Team, Global Programs Team, Strategic Interagency Team, Strategic Communications Team, Global Capacity and Leadership Development Team, Public-Private Engagement Team, and the United States Mission to the UN (USUN) in New York, Geneva, and Rome.

OPERATIONS DIVISION VALUES

OPS team members ensure that the following division values are incorporated into all aspects of work:

1. Spiritus Operandi/Espirit De Ops

- Demonstrating trust and openness among staff by assuming the best regarding our colleagues' intentions and efforts.
- Acting with eagerness and willingness to support one another and work together on tasks.
- Maintaining top-down and bottom-up transparency while promoting a strong work ethic as paramount.
- Demonstrating that optimism, humor, and perspective are powerful components of success, even in crisis-driven work.

2. Positive Interactions

- Owning how the OPS Division is perceived by others to ensure people maintain a positive impression of the division by treating everyone, regardless of seniority or organizational affiliation, in a professional, courteous, and respectful manner.
- Building a reputation that when OPS is on an issue, it's going to get addressed.
- Doing our jobs consistently, competently, and effectively, with a focus on results.

**Solicitation for a USPSC Deputy Manager for Operations/Deputy Team Leader for
Operations (Multiple Positions)
720FDA19B00060**

- Paying attention and listening mindfully to others, with the intent to really understand how they view a situation and what issue they are trying to address.
- Exhibiting partnership and enthusiasm in helping others solve problems; including delivering hard messages with a smile.

3. Competency

- Adopting flexible and creative solutions to provide partners and beneficiaries with quality, effective, consistent, and timely results.
- Maintaining proficiency and leadership in our areas of expertise, through engagement, training, field deployments, and exposure to other communities of thought.
- Holding a long-term strategic perspective in the face of current crises.
- Maintaining a global and functional focus for the office.

4. Resourcefulness

- Using innovating contracting, engagement, administrative, and programmatic approaches to meeting emerging requirements, while being flexible to changing needs.
- Reaching out within the office, agency, interagency, and community beyond to seek innovative and creative solutions.
- Proactively seeking and embracing positive change in order to provide and better service to our customers and stakeholders.
- Viewing challenges as opportunities and focusing on finding a solution rather than just highlighting complications or issues.

5. Staff Depth and Sustainability

- Cultivating a breadth of experience and expertise by hiring individuals from diverse professional, cultural, and experiential backgrounds.
- Proactively developing relationships with other industries and communities in order to learn and innovate.
- Encouraging staff to service in a variety of roles, through staff rotations, shadowing, mentoring, and OPS liaison positions.
- Continuing to support and staff responses through a variety of hiring mechanisms and resources.
- Achieving response readiness while prioritizing personal life for both self and team members.
- Bolstering staff wellness by incorporating flexible work schedules, leading to increased staff dedication, high-quality work, and flexibility.

6. Commitment to Safety and Security

- Recognizing that staff safety and security is everyone's responsibility and enables OFDA access in the field.
- Holding as a hallmark an underlying orientation towards managing risk for staff.
- Preparing staff through training, mentoring, standard operating procedures, and provision of contextual knowledge.
- Displaying professional conduct and integrity during crisis response operations.
- Advocating for professional assessments of security risks prior to deployment of staff.

**Solicitation for a USPSC Deputy Manager for Operations/Deputy Team Leader for
Operations (Multiple Positions)

INTRODUCTION

To address humanitarian crises in numerous locations across the world, OFDA has created the RMT and DART structures. The Washington-based RMTs support the USG's humanitarian assistance efforts in response to slow onset, rapid onset, and complex emergencies in multiple, varying locations, offering operational support to the field-based DARTs and serve as the focal point for coordination among USG interagency partners and other key stakeholders in Washington. The OFDA team members in the field are responsible for coordinating the USG's humanitarian response to countries in need, establishing programs to meet clearly defined humanitarian needs, and for overseeing OFDA's current and future humanitarian assistance programming. This solicitation is intended to establish the Deputy Manager for Operations (DMO) cadre and fill multiple DMO and DART Deputy Team Leader for Operations (DLO) positions, each of whom will be responsible for managing the Operations Section on a RMT or DART.

The RMT reports to the Response Director (RD), a role most often filled by a member of USAID/OFDA's senior management team. The RMT is led by a Response Manager (RM) who has three Deputy Managers, one each to supervise the activities of the Planning, Coordination, and Operations sections. The RMT collaborates with DART leaders and the RD to lead and develop the overall strategy for the response; manages overall RMT activities, including support for the DARTs and coordination within USAID and with partners; and serves as representatives for relevant USAID stakeholders to other federal officials, the media, and Congress.

The RMT gathers and analyzes information from these various sources and evaluates the impact of strategic, political, resource availability, budgetary, and other issues on the response. The RMT helps to integrate these issues with the field-level approach recommended by the DARTs to provide overall strategy recommendations to the RD. When the RD determines the strategic direction, the RMT coordinates with other staff in OFDA to determine the best method to activate and coordinate resources, including funding, staff, commodities, and supplies.

The DART reports to the RD, and is led by the DART Team Leader. The DART takes a leadership role within the international humanitarian architecture, shaping and encouraging policies to improve humanitarian action. The DART coordinates field-based USG engagement in the response and ensures that OFDA excels in the provision of humanitarian assistance by determining the strategy and field-level approach to humanitarian relief. This strategy will include the sectors and geographic areas most in need of USG assistance, the placement and use of resources (commodities, personnel, and equipment), and the identification of program priorities and qualified implementing partners. The DART seeks to address challenges and issues encountered in the affected country or region, using OFDA's limited funding to best advantage. Within this scope, the DART will: lead the development of the overall response strategy, in collaboration with the RD and RMT; conduct field assessments, prepare field reporting, and recommend appropriate avenues for OFDA relief funds; manage on-site relief operations, such as the movement and consignment of USG relief commodities; coordinate response activities with the U.S. Embassy, USAID Mission, other USG agencies, donor governments, the host country, international organizations (IOs), non-governmental organizations (NGOs), and other implementing partners.

OBJECTIVE

OFDA has established a cadre comprising multiple DMOs and DLOs to serve on various RMTs and DARTs in order to meet its objectives of maintaining continuity in key response leadership positions, fulfilling the staffing needs outlined in the Multiple Response Staffing Strategy, and providing necessary technical operational support to the complex responses to worldwide crises. This position will have the capacity to serve in the RMT DMO and DART DLO roles.

9. CORE FUNCTIONAL AREAS OF RESPONSIBILITY

DUTIES AND RESPONSIBILITIES

The DMO cadre is responsible for serving as OFDA's leads for supporting operational response, both in Washington and the field. Intermittent with RMT service, the USPSC will be expected to serve on DARTs in the DLO role. The RMT DMO and DART DLO support day-to-day activities of the RMT and DART, respectively – including staffing, organization, communication, and disaster assistance resources – and supervise the Operations Section that comprises administration, communications and records, logistics, safety and security, military liaison, and when needed, Urban Search and Rescue coordination units. The DMO and DLO manage internal team issues, helping to solve or elevate problems that impact team efficiency. When not engaged on an active response, these staff will conduct scheduled rotations between the four teams within the Operations Division (Disaster Assistance Support Program, Military Liaison Team, Operations Support Team, and Overseas Administration) to acquire additional familiarity and provide backfill for staff working responses. This position will take the following actions:

Specifically:

- Open and maintain position task book (PTB) for RMT DMO and PTB addendum for DART DLO;
- Serve on RMTs in the DMO role and delegate, monitor, and assure completion of tasks assigned to the Operations Section Units (civil-military, logistics, safety and security, communications, and administration);
- Prepare written documentation required to manage the response including delegations of authority articulating response objectives of the RMTs and DARTs for approval by the RD. Also ensure that appropriate guidance is prepared on support mechanics (travel, visas, funding) required to deploy and support staff;
- Develop staffing plans for the DARTs and RMTs in consultation with the RM, DART leader(s), and OFDA's senior staff. Recommend staffing and resource support alternatives that meet the objectives of USAID's disaster management strategy;
- Make recommendations to the RD, RMs and DART leaders regarding DART and RMT staffing, rotation, and demobilization/transition;
- Track OFDA personnel and commodity resources committed to the response;
- Coordinate with other units within OFDA and USAID as well as other USG organizations to fulfill the response strategy;
- Work with DART leaders and US embassies and/or USAID missions to ensure that the DART receives all necessary support;
- Communicate with participating USG agencies and external organizations to coordinate response activities, in close coordination with the RMT Deputy Manager for Coordination;

**Solicitation for a USPSC Deputy Manager for Operations/Deputy Team Leader for
Operations (Multiple Positions)
720FDA19B00060**

- Develop operational contingency plans to help guide the response, as needed, in coordination with RMT and DART leadership and participating USG agencies;
- Work with the Communication and Records Coordinator to monitor documentation of significant actions and events;
- Collaborate with the OFDA Operations Center Manager to ensure the operations center is functioning properly to meet the RMT's needs;
- Manage the demobilization/transition of DART and RMT staff: supervise the development of the Staff Demobilization/Transition Plan, working with the Deputy Manager for Planning; track plan progress and makes adjustments as needed;
- Participate in relevant trainings, division- or office-level rotations to provide necessary support and gain additional technical and operational knowledge;
- Obtain and maintain an active Classified network (CLASSNET) email account;
- Serve as the OFDA after-hours duty officer on a rotational basis, for approximately one week every six months;
- Serve on DARTs in the DLO role, which may require immediate (within 24 hours) deployment overseas for an extended period of time;
- Conduct scheduled rotations between the four teams within the Operations Division (Disaster Assistance Support Program, Military Liaison Team, Operations Support Team, and Overseas Administration) to acquire additional familiarity;
- Serve as backfill for staff working responses;
- Conduct analysis of lessons learned and best practices for humanitarian response;
- As needed, may serve on temporary details within the office, not to exceed six months. Duties performed while on detail will be aligned with the Team's existing duties and responsibilities as well as directly related to the scope of work provided.

SUPERVISORY RELATIONSHIP

The DMO cadre rests within OFDA's Operations Division, but the USPSC will take direction from and report to the RMT Response Manager, DART Team Leader, or his/her designee for day-to-day activities of the RMT or DART. Additionally, the Operations Division's Operations Support Team (OST) will be responsible for establishing the training requirements, providing onboarding supervision and overall coordination for the position within the cadre. The position may directly supervise a staff of seven or more people including, but not limited to, the Administrative Coordinator, Civil-Military Affairs Coordinator, Communications and Records Coordinator, Logistics Coordinator, Safety and Security Officer, and others as needed.

SUPERVISORY CONTROLS

Supervisor provides administrative directions in terms of broadly defined missions or functions. The USPSC independently plans, designs and carries out programs, projects, studies or other work. Results are considered authoritative and are normally accepted without significant change.

10. PHYSICAL DEMANDS

The work is generally sedentary and does not pose undue physical demands. During deployment on DARTs (if required), and during site visits, there may be some additional physical exertion

**Solicitation for a USPSC Deputy Manager for Operations/Deputy Team Leader for
Operations (Multiple Positions)
720FDA19B00060**

including long periods of standing, walking over rough terrain, or carrying of moderately heavy items (less than 50 pounds).

11. WORK ENVIRONMENT

Work is primarily performed in an office setting. During deployment on DARTs (if required), and during site visits, the work may additionally involve special safety and/or security precautions, wearing of protective equipment, and exposure to severe weather conditions.

12. START DATE: Immediately, once necessary clearances are obtained.

13. POINT OF CONTACT: See Cover Letter.

USPSC PROVISION “MEDICAL EXPENSE PAYMENT RESPONSIBILITY (OCTOBER 2006)

MEDICAL EXPENSE PAYMENT RESPONSIBILITY (OCTOBER 2006)

(a) Definitions. Terms used in this General Provision are defined in 16 FAM 116 (available at <http://www.foia.state.gov/REGS/fams.asp?level=2&id=59&fam=0>). Note: personal services contractors are not eligible to participate in the Federal Employees Health Programs.

(b) The regulations in the Foreign Affairs Manual, Volume 16, Chapter 520 (16 FAM 520), Responsibility for Payment of Medical Expenses, apply to this contract, except as stated below. The contractor and each eligible family member are strongly encouraged to obtain health insurance that covers this assignment. Nothing in this provision supersedes or contradicts any other term or provision in this contract that pertains to insurance or medical costs, except that section (e) supplements General Provision 25. “MEDICAL EVACUATION (MEDEVAC) SERVICES.”

(c) When the contractor or eligible family member is covered by health insurance, that insurance is the primary payer for medical services provided to that contractor or eligible family member(s) both in the United States and abroad. The primary insurer’s liability is determined by the terms, conditions, limitations, and exclusions of the insurance policy. When the contractor or eligible family member is not covered by health insurance, the contractor is the primary payer for the total amount of medical costs incurred and the U.S. Government has no payment obligation (see paragraph (f) of this provision).

(d) USAID serves as a secondary payer for medical expenses of the contractor and eligible family members who are covered by health insurance, where the following conditions are met:

- (1) The illness, injury, or medical condition giving rise to the expense is incurred, caused, or materially aggravated while the eligible individual is stationed or assigned abroad;
- (2) The illness, injury, or medical condition giving rise to the expense required or requires hospitalization and the expense is directly related to the treatment of such illness, injury, or medical condition, including obstetrical care; and
- (3) The Office of Medical Services (M/MED) or a Foreign Service medical provider (FSMP) determines that the treatment is appropriate for, and directly related to, the illness, injury, or medical condition.

(e) The Mission Director may, on the advice of M/MED or an FSMP at post, authorize medical travel for the contractor or an eligible family member in accordance with the General Provision 10, Travel and Transportation AAPD 06-10 PSC Medical Expense Payment Responsibility 6 Expenses (July 1993), section (i) entitled “Emergency and Irregular Travel and Transportation.” In the event of a medical emergency, when time does not permit consultation, the Mission Director may issue a Travel Authorization Form or Medical Services Authorization Form DS-3067,

**Solicitation for a USPSC Deputy Manager for Operations/Deputy Team Leader for
Operations (Multiple Positions)
720FDA19B00060**

provided that the FSMP or Post Medical Advisor (PMA) is notified as soon as possible following such an issuance. The contractor must promptly file a claim with his or her medevac insurance provider and repay to USAID any amount the medevac insurer pays for medical travel, up to the amount USAID paid under this section. The contractor must repay USAID for medical costs paid by the medevac insurer in accordance with sections (f) and (g) below. In order for medical travel to be an allowable cost under General Provision 10, the contractor must provide USAID written evidence that medevac insurance does not cover these medical travel costs.

(f) If the contractor or eligible family member is not covered by primary health insurance, the contractor is the primary payer for the total amount of medical costs incurred. In the event of a medical emergency, the Medical and Health Program may authorize issuance of Form DS-3067, Authorization for Medical Services for Employees and/or Dependents, to secure admission to a hospital located abroad for the uninsured contractor or eligible family member.

In that case, the contractor will be required to reimburse USAID in full for funds advanced by USAID pursuant to the issuance of the authorization. The contractor may reimburse USAID directly or USAID may offset the cost from the contractor's invoice payments under this contract, any other contract the individual has with the U.S. Government, or through any other available debt collection mechanism.

(g) When USAID pays medical expenses (e.g., pursuant to Form DS-3067, Authorization for Medical Services for Employees and/or Dependents), repayment must be made to USAID either by insurance payment or directly by the contractor, except for the amount of such expenses USAID is obligated to pay under this provision. The Contracting Officer will determine the repayment amount in accordance with the terms of this provision and the policies and procedures for employees contained in 16 FAM 521. When USAID pays the medical expenses, including medical travel costs (see section (e) above), of an individual (either the contractor or an eligible family member) who is covered by insurance, that individual promptly must claim his or her benefits under any applicable insurance policy or policies. As soon as the individual receives the insurance payment, the contractor must reimburse USAID for the full amount that USAID paid on the individual's behalf or the repayment amount determined by the Contracting Officer in accordance with this paragraph, whichever is less. If an individual is not covered by insurance, the contractor must reimburse USAID for the entire amount of all medical expenses and any travel costs the contractor receives from his/her medevac provider.

(h) In the event that the contractor or eligible family member fails to recover insurance payments or transfer the amount of such payments to USAID within 90 days, USAID will take appropriate action to collect the payments due, unless such failure is for reasons beyond the control of the USPSC/dependent. (i) Before departing post or terminating the contract, the contractor must settle all medical expense and medical travel costs. If the contractor is insured, he or she must provide proof to the Contracting AAPD 06-10 PSC Medical Expense Payment Responsibility 7 Officer that those insurance claims have been submitted to the insurance carrier(s) and sign a repayment agreement to repay to USAID any amounts paid by the insurance carrier(s).

GP 5. LEAVE AND HOLIDAYS (DEC 2017)

(Pursuant to class deviation #M/OAA-DEV-AIDAR-18-1c)

(a) Annual Leave

(1) The contractor is not entitled to annual leave if the period of performance of this contract is 90 days or less. If the contract period of performance is more than 90 days, the contractor shall earn annual leave as of the start date of the contract period of performance as specified in paragraph (a)(2) below.

(2) The contractor shall accrue annual leave based on the contractor's time in service according to the following table:

Time in Service	Annual Leave (AL) Accrual Calculation
0 to 3 years	Four hours of leave for each two week period
over 3, and up to 15 years	Six hours of AL for each two week period (including 10 hours AL for the final pay period of a calendar year)
over 15 years	Eight hours of AL for each two week period

USAID will calculate the contractor's time in service based on all the previous service performed by the contractor as a: 1) USAID PSC (i.e., the contractor has served under any USAID personal services contracts of any duration covered by Sec. 636(a)(3) of the FAA or other statutory provision applicable to USAID); and/or 2) former U.S. Government (USG) direct-hire, under either civilian and/or military service.

(3)

(i) AL is provided under this contract for the purposes of affording necessary rest and recreation during the period of performance. The contractor, in consultation with the USAID Mission or USAID/Washington, as appropriate, shall develop an AL schedule early in the contractor's period of performance, taking into consideration project requirements, employee preference, and other factors. All AL earned by the contractor must be used during the contractor's period of performance. All AL earned by the contractor, but not taken by the end of the contract, will be forfeited. However, to prevent forfeiture of AL, the Contracting Officer may approve the contractor taking AL during the concluding weeks of the contractor's period of performance.

(ii) As an exception to 3(i) above, the contractor may receive a lump-sum payment for leave not taken. To approve this exception, the contractor's supervisor must provide the Contracting Officer with a signed, written Determination and Findings (D&F). The D&F must set out the facts and circumstances that prevented the contractor from taking AL, and the Contracting Officer must find that these facts and circumstances were not caused by, or were beyond the control of, the contractor. This leave payment must not exceed the number of days which could be earned by the contractor during a twelve-month period.

(4) With the approval of the Mission Director or cognizant AA, as appropriate, and if the circumstances warrant, a Contracting Officer may grant the contractor advance AL in excess of the amount earned, but in no case may the Contracting Officer grant advance AL in excess of the

**Solicitation for a USPSC Deputy Manager for Operations/Deputy Team Leader for
Operations (Multiple Positions)
720FDA19B00060**

amount earned in one year or over the life of the contract, whichever is less. The contractor agrees to reimburse USAID for any outstanding balance of advance AL provided during the contractor's assignment under the contract.

(5) Applicants for PSC positions will provide evidence of their PSC and/or USG direct-hire service - civilian and/or military experience, as applicable, on their signed and dated application form required under USAID policy. By signing the appropriate form, the applicant attests to the accuracy of the information provided. Any applicant providing incorrect information is subject to the penalty provisions in the form. If required to satisfy due diligence requirements on behalf of the Contracting Officer, the contractor may be required to furnish evidence that verifies length of service, e.g., SF 50, DD Form 214, and/or signed contracts.

(b) Sick Leave. The contractor may use sick leave on the same basis and for the same purposes as USAID U.S. direct hire employees. Sick leave is earned at a rate not to exceed four (4) hours every two (2) weeks for a total of 13 work-days per year. Unused sick leave may be carried over under an extension or renewal of this contract with the same individual for the same work.

Otherwise, sick leave will not be carried over from one post to another or from one contract to another. The contractor will not be compensated for unused sick leave upon completion of this contract.

(c) Home Leave.

(1) Home leave is leave earned for service abroad for use only in the U.S., its commonwealths, possessions and territories.

(2) A USPSC who has served at least two years overseas at the same USAID Mission, under the same contract, as defined in paragraph (c)(4) below, and has not taken more than 30 work days leave (annual, sick or LWOP) in the U.S. may be granted home leave in accordance with the following:

(i) if the USPSC returns to the same overseas post upon completion of home leave for an additional two (2) years under the same contract, the USPSC will receive home leave, to be taken at one time, for a period of 30 work days; or

if the USPSC returns to the same overseas post upon completion of home leave for such shorter period of not less than one year, as approved in writing by the Mission Director prior to the USPSC's departure on home leave, the USPSC will receive home leave, to be taken at one time, for a period of 30 work days.

(ii) if the USPSC is returning to a different USAID Mission under a USAID personal services contract immediately following completion of the USPSC's home leave, for an additional two (2) years under contract, or for such shorter period of not less than one (1) year, as approved by the Mission Directors of the "losing" and "gaining" Missions, the contractor will receive home leave, to be taken at one time, for a period of not more than 20 work days. When the PSC is returning to a different USAID Mission, the former Mission will pay for the home leave regardless of what country the PSC will be working in following the home leave;

(iii) if home leave eligibility is based on (c)(2)(ii) above, the USPSC must submit written verification to the losing Mission at the time home leave is requested that the USPSC has accepted a USAID personal services contract at another USAID Mission following

**Solicitation for a USPSC Deputy Manager for Operations/Deputy Team Leader for
Operations (Multiple Positions)
720FDA19B00060**

completion of the home leave;

(iv) travel time by the most direct route is authorized in addition to the number of work days authorized for home leave;

(v) home leave must be taken in the U.S., its commonwealths, possessions or territories, and any days spent elsewhere will be charged to annual leave (AL.) If the PSC does not have accrued AL, the PSC will be placed on LWOP.

(vi) if the PSC does not complete the additional service required under (c)(2)(i) or (ii) (that the Contracting Officer finds are other than for reasons beyond the PSC's control), the cost of home leave, travel and transportation and any other related costs must be repaid by the PSC to the Government.

(3) Notwithstanding the requirement in paragraph (c)(2) above, that the USPSC must have served two (2) years overseas under personal services contract with the same Mission to be eligible for home leave, the USPSC may be granted advance home leave subject to all of the following conditions:

(i) Granting of advanced home leave would in each case serve to advance the attainment of the objectives of this contract; and

(ii) The USPSC has served a minimum of 18 months in the Cooperating Country under this contract; and

(iii) The USPSC agrees to return to the Cooperating Country to serve out the remaining time necessary to meet two (2) years of service overseas, plus an additional two (2) years under the current contract or under a new contract for the same or similar services at the same Mission. If approved in advance by the Mission Director, the USPSC may return to serve out any remainder of the two (2) year requirement for service overseas, plus an additional period of not less than one (1) year under the current contract or under a new contract for the same or similar services at the same Mission.

(4) The period of service overseas required under paragraph (c)(2), or paragraph (c)(3) above, will include the actual days in orientation in the U.S. (less language training). The actual days overseas begin on the date of arrival in the cooperating country inclusive of authorized delays enroute. Allowable annual and sick leave taken while overseas, but not LWOP, shall be included in the required period of service overseas. An amount equal to the number of days of annual and sick leave taken in the U.S., its commonwealths, possessions or territories will be added to the required period of service overseas.

(5) Salary during the travel to and from the U.S., for home leave will be limited to the time required for travel by the most expeditious air route. Except for reasons beyond the USPSC's control as determined by the Contracting Officer, the USPSC must return to duty after home leave and complete the additional required service or be responsible for reimbursing USAID for payments made during home leave. Unused home leave is not reimbursable under this contract, nor can it be taken incrementally in separate time periods.

(6) Home leave must be taken at one time, and to the extent deemed necessary by the Contracting

**Solicitation for a USPSC Deputy Manager for Operations/Deputy Team Leader for
Operations (Multiple Positions)
720FDA19B00060**

Officer, an USPSC in the U.S., on home leave may be authorized to spend not more than five (5) days in work status for consultation at USAID/Washington before returning to post. Consultation at locations other than USAID/Washington as well as any time in excess of five (5) days spent for consultation must be approved by the Mission Director or the Contracting Officer.

(d) Home Leave for Qualifying Posts (HLQP). USPSCs who ordinarily qualify for home leave and have completed a 12-month assignment at one of the USAID qualifying posts (currently Iraq, Afghanistan and Pakistan) are entitled to take ten (10) workdays of leave in addition to the home leave an USPSCs is normally entitled to under the contract in accordance with sub-paragraphs (c)(1) - (6) above. This additional home leave is provided pursuant to an amendment to the Foreign Service Act of 1980 signed by the President on June 15, 2006.

There is no requirement that an eligible USPSC take this additional leave; it is for optional use by the USPSC. If an eligible USPSC elects to take HLQP, the USPSC must take ten (10) workdays of home leave. If the USPSC is returning to the United States and not returning overseas to the same or different USAID Mission, HLQP will not apply.

This new home leave policy is also extended to qualifying **Third-Country National PSCs (TCNPSCs)** who have an approved exception under AIDAR Appendix J, sec. 4(c)(2)(ii)(B), to apply specific provisions from AIDAR Appendix D, and whose contract includes this General Provision. However, TCNPSCs will be granted "country leave" vice home leave. The application, requirements, and restrictions will be the same as for USPSCs, but the time taken by a TCNPSC will be taken in the TCNPSC's home country or country of recruitment rather than in the United States, its commonwealths and territories.

(e) Holidays and Excused Absences. The contractor shall be entitled to all holidays and or excused absences granted by the USAID to U.S. direct-hire employees.

(f) Military Leave. Military leave of not more than 15 calendar days in any calendar year may be granted to a contractor who is a reservist of the U.S. Armed Forces. The contractor must provide advance notice of the pending military leave to the Contracting Officer or the Mission Director as soon as known. A copy of any such notice must be part of the contract file.

(g) Leave Without Pay (LWOP). LWOP may be granted only with the written approval of the Contracting Officer or Mission Director, unless a USPSC is requesting for such leave for family and leave purposes under paragraph (i) below.

(h) Compensatory Time. Compensatory time leave may be granted only with the written approval of the Contracting Officer or Mission Director in rare instances when it has been determined absolutely essential and used under those guidelines which apply to USAID U.S. direct-hire employees.

(i) Family and Medical Leave (FML)

(1) USAID provides family and medical leave (FML) for eligible USPSCs working within the U.S., or any Territories or possession of the United States, in accordance with Title I of the Family and Medical Leave Act of 1993, as amended, and as administered by the Department of Labor under [29 CFR 825](#). USAID is also extending FML to eligible USPSCs working outside the U.S., or any Territories or possession of the U.S., in accordance with this paragraph (i) as a matter of policy

**Solicitation for a USPSC Deputy Manager for Operations/Deputy Team Leader for
Operations (Multiple Positions)
720FDA19B00060**

discretion.

(2) FML only applies to USPSCs, not any other type of PSC.

(3) To be eligible for FML, a USPSC must have been employed (i) for at least 12 months by USAID; and (ii) for at least 1,250 hours of service with USAID during the previous 12-month period. The specific eligibility criteria and requirements are provided in USAID policy.

(4) In accordance with [29 CFR 825.200\(a\)](#) and USAID policy, an eligible USPSC may take up to 12 workweeks of leave under FMLA, Title I, in any 12-month period for the following reasons:

(a) The care of the USPSC's newborn child.

(b) The care of the USPSC's newly placed adopted or foster care child.

(c) The care of the USPSC's spouse, child or parent with a serious health condition.

(d) The USPSC's own serious health condition.

(e) A qualifying exigency arising from the USPSC's spouse, child or parent in active duty military status.

(f) Other qualifying exigencies as determined by the Department of Labor.

(5) In accordance with 29 CFR Part 825.207, the USPSC may take LWOP for FML purposes. However, the USPSC may choose to substitute LWOP with accrued paid leave, including accrued annual or sick leave, or compensatory time earned under this contract. If the USPSC does not choose to substitute accrued paid leave, the CO, in consultation with the USPSC's supervisor, may require the USPSC to substitute accrued paid leave for LWOP. The CO must verify the accuracy of the USPSC's accrued paid leave request and obtain the required certifications for approval of FML in accordance with the stated USAID policy.

(6) FML is not authorized for any period beyond the completion date of this contract.

(7) When requesting FML, the USPSC must demonstrate eligibility to the USPSC's supervisor by completing USAID's FML request forms, including certifications and other supporting documents required by USAID policy.

(8) The U.S. Department of Labor's (DOL's) [Wage and Hour Division \(WHD\) Publication 1420](#) explains the FMLA's provisions and provides information concerning procedures for filing complaints for violations of the Act.

(j) Leave Records. The contractor shall maintain current leave records for himself/herself and make them available, as requested by the Mission Director or the Contracting Officer.

**GP 25. MEDICAL EVACUATION (MEDEVAC) SERVICES (MAY 2018)
(Pursuant to class deviation #M/OAA-DEV-AIDAR-18-3c)**

USAID will provide Medevac services to the contractor and authorized dependents, through the Department of State's Bureau for Medical Services (MED), similar to those provided to U.S. Government employees in accordance with [16 FAM 300](#) Medical Travel. Medevac costs include travel and per diem, but do not include medical care costs. To be covered by the Medevac program, the contractor and authorized dependents must obtain and maintain international health insurance coverage that includes overseas hospitalization, and must provide proof of such insurance to the contracting officer prior to relocation abroad.
